Summary

Full-stack developer specializing in the MERN stack with hands-on experience in React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and cloud deployment. Experienced in building and deploying full-stack web applications with a strong foundation in JavaScript and modern web development. Also proficient in Python and Flask, with experience developing RESTful APIs and database-driven applications using MySQL. Currently pursuing an MCA and seeking full-stack development opportunities, while also open to Python-focused software engineering roles.

Experience

Full Stack (MERN) Developer Intern

July 2026 – Present

Arison Guruteck Solutions, Pune

- Built core features of the company's e-commerce platform — product listings, shopping cart, checkout flow, and an admin panel — using Next.js, Tailwind CSS, Node.js, and Express.js.
- Debugged and resolved a CSS cascade conflict caused by an unlayered global reset overriding Tailwind utility classes, restoring consistent styling site-wide.
- Use AI-assisted development tools (Claude, ChatGPT, Codex, Antigravity) throughout the daily workflow to accelerate implementation, debugging, and code review.

Projects

Lumina — AI-Powered Blogging Platform

[Live Demo: Lumina](#)

React.js, Node.js, Express.js, MongoDB Atlas, OpenAI API, Cloudinary, JWT | May 2026 – Jun 2026

- Integrated the OpenAI API to power AI-assisted content generation within a full-stack MERN blogging platform.
- Designed and integrated 15+ RESTful API endpoints for authentication, posts, comments, bookmarks, profiles, and AI-powered content services.
- Built secure authentication with JWT, Bcrypt password hashing, email OTP verification, and password recovery workflows.
- Deployed the production application on Vercel and Render, configuring environment variables and third-party service integrations.

Digital Complaint & Grievance Portal

[GitHub: Grievance-Portal](#)

Python, Flask, MySQL, HTML, CSS, JavaScript | Mar 2026 – Apr 2026

- Built a full-stack Python (Flask) web application with role-based authentication for 2 user types, enabling secure complaint registration, tracking, and resolution.
- Developed RESTful APIs in Flask and implemented complete CRUD operations against a MySQL database for end-to-end complaint management.
- Designed a normalized relational database schema with optimized relationships to ensure data consistency and efficient querying.

CollabBoard — Real-Time Collaborative Whiteboard

[GitHub: CollabBoard](#)

React.js, Node.js, Express.js, MongoDB, Socket.io | Nov 2025 – Dec 2025

- Engineered a real-time collaborative whiteboard for 10+ concurrent users with sub-50ms sync via Socket.io/WebSockets, cutting network overhead over 70% versus HTTP polling.
- Optimized React state management, cutting unnecessary re-renders by 40% and sustaining 60 FPS during canvas updates.

Skills

Languages: Python, JavaScript (ES6+), Java

AI-Assisted Development: OpenAI API, Claude, ChatGPT, Codex, Antigravity

Backend & APIs: Flask, Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, Mongoose, MySQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Tools: Git, GitHub, Postman, VS Code, Jira, Figma

Core Concepts: Data Structures & Algorithms, OOP, MVC Architecture, API Integration, Agile

Soft Skills: Problem Solving, Decision Making, Time Management, Attention to Detail

Education

Master of Computer Applications (MCA)

Aug 2025 – Present

M.E.S Institute of Management and Career Courses, Pune

Relevant Coursework: Python, SQL, NoSQL, Data Structures and Algorithms

Bachelor of Computer Applications (BCA)

Aug 2022 – May 2025

Chintamanrao Institute of Management, Development and Research, Sangli

Relevant Coursework: Web Designing, RDBMS, PHP, Java, Data Structures and Algorithms

Certifications

- Responsive Web Design — FreeCodeCamp (June 2024)
- Legacy JavaScript Algorithms and Data Structures — FreeCodeCamp (July 2024)
- React.js Certification — HackerRank (Feb 2025)
- Frontend Developer (React) — HackerRank (Dec 2025)
- Node.js (Intermediate) Certification — HackerRank (June 2026)
