| sophia-patttekari-portfolio.vercel.app

Summary

MCA student with hands-on experience in software development, API testing, debugging, and application quality validation. Experienced in testing REST APIs using Postman, validating frontend workflows, and verifying database-backed functionality across full-stack applications. Familiar with manual, functional, regression, and integration testing, with foundational Selenium knowledge and strong understanding of SQL, MongoDB, REST APIs, and Agile development. Seeking QA / Software Testing internship opportunities.

Experience

Full Stack (MERN) Developer Intern

July 2026 – Present

Arison Guruteck Solutions, Pune

- Developed and validated full-stack features for e-commerce and ERP applications using Next.js, Node.js, Express.js, MongoDB, and REST APIs.
- Performed API testing using Postman to verify CRUD operations, authentication, request/response behavior, validation rules, and HTTP status codes.
- Performed frontend QA across dashboards, tables, forms, filters, routing, and MongoDB-backed data to verify UI-to-API integration.
- Verified task-management routes, dashboard KPIs, table mappings, search/filter behavior, and real-data integration against backend APIs.
- Tested business workflows and edge cases across inventory and sales modules, including stock reservation, stock release, order lifecycle transitions, and return quantity validation.
- Identified and debugged application defects across frontend styling, API integration, and business workflows.

Projects

Lumina — AI-Powered Blogging Platform

[Live Demo: Lumina](#)

React.js, Node.js, Express.js, MongoDB Atlas, OpenAI API, Cloudinary, JWT | May 2026 – Jun 2026

- Integrated the OpenAI API to power AI-assisted content generation within a full-stack MERN blogging platform.
- Tested and validated 15+ RESTful API endpoints covering authentication, posts, comments, bookmarks, profiles, and AI-powered services using Postman.
- Verified JWT authentication, OTP verification, password recovery, CRUD operations, API responses, and frontend-backend integration.

Digital Complaint & Grievance Portal

[GitHub: Grievance-Portal](#)

Python, Flask, MySQL, HTML, CSS, JavaScript | Mar 2026 – Apr 2026

- Built a Flask-based application with role-based authentication for student and staff workflows, including complaint registration, tracking, and resolution.
- Implemented and validated RESTful APIs and CRUD operations against MySQL for end-to-end complaint management.
- Verified database relationships and data consistency across application workflows using a normalized relational schema.

CollabBoard — Real-Time Collaborative Whiteboard

[GitHub: CollabBoard](#)

React.js, Node.js, Express.js, MongoDB, Socket.io | Nov 2025 – Dec 2025

- Tested real-time synchronization and collaborative canvas workflows for concurrent users using Socket.io/WebSockets.
- Debugged frontend state-management and rendering issues to maintain responsive real-time interactions.

Skills

Testing: Manual Testing, Functional Testing, Regression Testing, Integration Testing, API Testing, Test Case Design, Bug Identification & Debugging

Automation: Selenium (Fundamentals)

API & Tools: Postman, REST APIs, Git, GitHub, Jira, VS Code

Languages: Python, JavaScript (ES6+), Java, SQL

Databases: MySQL, MongoDB, Mongoose

Development: React.js, Next.js, Node.js, Express.js, Flask, HTML5, CSS3, Tailwind CSS

Concepts: SDLC, STLC, OOP, Data Structures & Algorithms, MVC, Agile

Education

Master of Computer Applications (MCA)

Aug 2025 – Present

M.E.S Institute of Management and Career Courses, Pune

Relevant Coursework: Python, SQL, NoSQL, Data Structures and Algorithms

Bachelor of Computer Applications (BCA)

Aug 2022 – May 2025

Chintamanrao Institute of Management, Development and Research, Sangli

Relevant Coursework: Web Designing, RDBMS, PHP, Java, Data Structures and Algorithms

Certifications

- Responsive Web Design — FreeCodeCamp (June 2024)
- Legacy JavaScript Algorithms and Data Structures — FreeCodeCamp (July 2024)
- React.js Certification — HackerRank (Feb 2025)
- Frontend Developer (React) — HackerRank (Dec 2025)
- Node.js (Intermediate) Certification — HackerRank (June 2026)
