Summary

MERN Stack Developer with experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive user interfaces, RESTful APIs, database design, and integrating frontend and backend systems. Passionate about creating scalable web applications and solving real-world problems through modern web technologies.

Education

Bachelor of Computer Application

Aug 2022 – May 2025

Chintamanrao Institute of Management, Development and Research, Sangli, Maharashtra, India

- Relevant coursework - Web designing, RDBMS, PHP, Java, Data Structures and Algorithms

Master of Computer Application

Aug 2025 – Present

M.E.S Institute of Management and Career Courses, Pune

- Relevant coursework – Python, SQL, NoSQL, Data Structures and Algorithms

Projects

Lumina | AI-Powered Blogging Platform

May 2026 – June 2026

React.js, Node.js, Express.js, MongoDB Atlas, Cloudinary, JWT

Live Demo: [Lumina](#)

- Developed a full-stack blogging platform enabling users to create, edit, publish, and manage blog posts through a modern responsive interface.
- Implemented secure authentication using JWT, password encryption with Bcrypt, email verification via OTP, and password recovery functionality.
- Built features including AI-assisted content generation, bookmarking posts, commenting system, profile management, and story sharing.
- Integrated Cloudinary for image uploads and MongoDB Atlas for cloud database management.
- Designed RESTful APIs using Express.js and connected the frontend with Axios for seamless client-server communication.
- Deployed the application using Vercel (Frontend) and Render (Backend), ensuring production-ready accessibility.

CollabBoard | Real-Time Collaborative Whiteboard

Nov 2025 – Dec 2025

React.js, Node.js, Express.js, MongoDB, Socket.io

GitHub: [CollabBoard](#)

- Engineered a collaborative digital workspace with real-time drawing synchronization across distributed clients.
- Handled complex state management in React to render continuous brush strokes and shape updates without performance degradation.
- Designed a clean, distraction-free UI/UX that prioritizes the canvas area while keeping essential drawing tools easily accessible.
- Integrated WebSocket protocols via Socket.io to replace HTTP polling, significantly reducing server load and network latency.

Skills

Technical Skills:

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Postman, VS Code, Jira, Figma

Programming Languages: JavaScript, Java, Python

Core Concepts: Data Structures & Algorithms, OOP, MVC Architecture, API Integration

Soft Skills: Problem Solving, Decision Making, Time Management, Attention to Detail

Certifications

- **Responsive Web Design** (FreeCodeCamp) June 2024
- **Legacy JavaScript Algorithms and Data Structures** (FreeCodeCamp) July 2024
- **Frontend Developer (React)** (HackerRank) Dec 2025
- **React.js Certification** (HackerRank) Feb 2025
